Reviews

Monteiro Guy Concordia offers a mix of positive and negative reviews. Customers praise the delicious poutine, generous portions for $10, authentic Quebec poutine cheese, succulent chicken with bold flavors, and delightful natas for dessert. The atmosphere is described as nice and chill but can get crowded at times. However, some reviewers have criticized the cleanliness, taste inconsistency, loud music affecting communication with staff, slow service on busy days, and unprofessional behavior from employees like chatting on phones instead of attending to customers.

I tried both the rice bowl and the poutine bowl, and while both were good, the poutine was definitely my favorite. The flavors were much better compared to the rice bowl. As for the drinks, I wouldn't recommend the pineapple one—it tasted too much like cough syrup. The orange was okay, but not great. The atmosphere was nice and chill, though it can get crowded at times. Overall, the service was good, and I got my food in under 7 minutes. Parking was on a different rd where the parking was free. It was halal yes.

monteiro is keeping me from starving and saving my life as a student that's kind of broke and doesn't have a lot of money and this thing is packed. It's generous there's a lot of food for 10 bucks. and it's crazy because they use authentic Quebec poutine cheese and there's a good amount of chicken is very delicious. Get the spicy one and it was super quick as well.

It's a pretty simple recipe, yet the fries came out burned even with a timer. With prices going up, I'd expect more attention to quality. Maybe the owner should consider paying the staff well enough so they're motivated to care.

Hi, I've been referred to this restaurant a year ago, service was excellent back then. I will attach picture of my last perfect meal and service along with quality now. I lot of small fly, smoke from grill (ventilation seems not working) Taste of chicken is really bad and not well cooked along with poutine sauce. I really insist of cleanliness, it's way worse than last time I ate there. Working team not wearing gloves and touching everything and serving bare hands. Please bring back the old taste and the quality you were known for. I'm disappointed.
